CRITERIA FOR PROMOTION FOR SEC 2 N(T)

Streaming Process

CARE

Streaming is based on MERIT!

Your **overall** results matters!

Overall Mark =

**WA1 (15%) + WA2 (15%) + WA3 (15%)
+ SA2 (55%)**

*There is still time to catch up if you have not
done well in WA1 & WA2!*

*Important: The Overall Mark of ALL subjects
are taken into consideration during streaming!!*

**I want to
make the
world a
better place.**

Streaming Exercise

- Streaming Exercise will be conducted on-line in Term 4, after EOY Exams.
- Subject talks will be conducted in Term 4, just before the Streaming Exercise.
- Results of Streaming will be released in early November (during school holidays).
- *Note: Choose your options carefully!
Success rate of appeals is very low!!*

DISCIPLINE

Your options matters!

- Choose your options carefully!
- Make use of all the number of options given.
- There is no best combination for all students – what is best for you may not be the best for your friends.
- When choosing the options, do consider the following factors:
 - Your Aptitude
 - Your Interests
 - Your Career Aspirations

NOTE:

- Begin with the end in mind when deciding on the subject combinations to choose.
- Brief synopsis of each subject can be found in the Streaming Booklet which is emailed to every student.
- The subject combinations given in the Streaming Booklets are **tentative**. Actual subject options that will be offered will be confirmed in Term 4.
- Depending on the demand, not all the final subject combinations may be offered.

From ITE to NUS medicine: Ex-dropout makes the grade

23-year-old, who had quit secondary school,
is first ITE grad to be accepted by med school

Amelia Teng
Education Correspondent

The long shot has come good.

Mr Nicholas Chan, 23, is the first Institute of Technical Education (ITE) graduate to make it to the National University of Singapore's Yong Loo Lin School of Medicine, which this year had about 280 places for some 2,000 applicants.

Far from being a straight-A student, he had quit secondary school, taken the O levels as a private candidate, then trained as a nursing student in ITE, and then Nanyang Poly-

technic (NYP).

"I freaked out and I lost it," said Mr Chan, when he logged on to the admissions portal for universities earlier this month to check if his application was successful. He even took a video of himself clicking "yes" to the offer that night, just because he could not believe that he had been accepted.

His application to the medical school last year was rejected.

"I was just being realistic. I'm far from the best person to apply. I knew it was a long shot, and to get it was really unreal."

The younger of two brothers had

Story to share...

Andy Pang Teng Seng

Grades were never a priority for Andy during his primary school days. Although he was channelled to the 'N(T)' stream, he slowly began to enjoy learning. This new-found joy propelled him to graduate as the top student for GCE 'N(T)' Level in his secondary school. He subsequently completed Nitec in Mechatronics with an impressive Grade Point Average (GPA) of 3.98. That set his path towards a Diploma in Mechatronics at TP.

▶▶ As applied learning was his forte, Andy grew in confidence as he shared his knowledge by tutoring his peers and juniors who faced difficulties in school. Andy's performance improved steadily and his final year project won the merit award at the TP Engineering Roadshow.

Upon completion of his National Service (NS), Andy proceeded to pursue the same field through a degree in Nanyang Technological University (NTU) and eventually attained a Degree with Honours in Electrical and Electronic Engineering.

Andy's Education and Career Pathway

As applied learning was his forte, Andy grew in confidence as he shared his knowledge by tutoring his peers and juniors who faced difficulties in school.
